Pros

- Strong free cash flow generation over 5 years signals healthy business fundamentals.
- Very high interest coverage ratio reflects negligible financial stress from debt servicing.
- Revenue growing slower than profits shows improving operating leverage and scale benefits.
- Improving asset efficiency indicates better capital allocation and operational performance.

Cons

- Free cash flow has remained negative for three consecutive years.
- Operating margins have declined for three consecutive years.
- Dividend payout ratio above 100% may not be sustainable over the long term.
- Earnings per share have declined for three consecutive years.
- Return on equity below 10% suggests weak capital efficiency.
